Subject: L321 Repair at Sutphen

Chief,

I have spoken to John Taylor at Sutphen Service and he has stated they have found the following issues.

1. Fuel tank cracked and leaking.
2. "Compartment Door Open" light was constantly on.
3. Compartment door switches were bad or needed wires repaired(x3).
4. "Jake Brake" / Turbo working against each other and making a different noise.
5. Compartments were separating at rear of truck.

John has advised me that the parts and labor would not exceed \$6000.00 for the repairs. I would suggest that we ask the BOT for a blanket PO not to exceed that amount.
