1. Item Description:

Purchase of the replacement cascade system. The cascade system is responsible for fill all SCBA bottles and mobile cascade system on A322.

2. Service Delivery Impact

Will bring LTFD into current compliance for a Class 3 fill station. It will replace the 18 year old system that has less fill capacity, a lower psi rating (4500psi vs. 6000psi) and a Class 2 fill station. A Class 3 offers personal protection from SCBA bottle failure, not provided by Class 2 system.

3. Personnel Requirements:

None.

4. Cost Impact of New Item:

Re: Cascade System Resolution

The following is my draft language for the resolution to purchase the cascade system. Capt Piwitorak will be forwarding a separate draft for the purchase of the heart monitors and AED's.

RESOLUTION #08-xxxxx

Resolution to purchase the following cascade air fill system; said system for the filling of self contained breathing apparatus (SCBA) bottles.

The cascade system consisting of the following items is to be provided by:

Breathing Air Systems
8855 E. Broad Street
Reynoldsburg, Ohio 43068

1. One 6000 psi. compressor, Bauer model # S3-6K13E1-EV
2. One 4 bottle 6000 psi cascade system model CS6-4
3. One Class 2, NFPA-1901/1500 compliant containment fill station, model CFSII-2SX4X4

This system is to be furnished for the sum of \$40,307.00.

90% of cascade system cost to be reimbursed from the FY 2008 Assistance to Firefighters Grant award (EMW-2008-FO-11467) to the Liberty Township Fire Department.
