

RESOLUTION #09-1019-09

Authorize the Fire Department to purchase ResponsEMS Protocol software

WHEREAS, the Liberty Township Fire Department has submitted a budget which has been approved, and

WHEREAS, the Fire Department is requesting that the Board of Trustees approve the purchase of ResponsEMS Protocol software, and

WHEREAS, in an effort to make the Fire Department more efficient the software will be installed on Fire Department laptops and will be overseen by Capt. Piwtorak, the staff is requesting that the Board of Trustees approve the purchase of ResponsEMS Protocol software at the cost of \$4,295.00, and

NOW, THEREFORE BE IT RESOLVED BY THE BOARD OF TRUSTEES OF LIBERTY TOWNSHIP, DELAWARE COUNTY, OHIO, authorize the Fire Department to purchase the ResponsEMS Protocol software at a cost not to exceed \$4,295.00 using Fire funds.

This Resolution shall be in force and become effective immediately upon its execution.

Motion made by Guzzo and seconded by Sybert.

Select One: New Program

Date:

Existing Program

1. Program Description:

EMS runs off a written protocol that has grown over the years to over 200 pages of text. Similar to instruction manuals, they are filled with filler words to make the document read smoothly. In an emergency, these words become cumbersome and unimportant. The past few years a new company came out, taking the written protocol, and changing it to a user friendly document used off the computer and as a hard copy as a redundant system for use.

2. Service Delivery Impact

This system is being used by other Central Ohio EMS departments where their people like the system. The program will allow the medics quick access to the protocol specific to areas that they do not see on a regular basis. Furthermore, the program provides all the math for them diminishing the potential for a mistake and having the township liable. This system will assist the medics to access the protocol easier which in turn will provide a more efficient service to the community that we serve. The program will also be able to be access to any computer.

3. Personnel Requirements:

Initial training will have to be provided to understand the intricacies of the program. Once the training is provided, the program is very easy to use and can be manipulated quite nicely while maintaining vigilance over the patient's condition. When the protocol changes, the changes will be done via logging into the website to upload /download the information.

4. Cost Impact of New Program:

Account #	Item	Quantity	Unit Cost	One Time	On Going	Total Cost
2191-220-	ResponsEMS Protcol	1	\$3,795.00	X		\$3,795.00
	Annual Maintainence	1	\$500.00		X	\$500.00
		0				\$0.00
		0				\$0.00
		0				\$0.00
Expense Sub-Total						\$4,295.00

Revenue Offset:

Account #	Revenue Description	Total Revenue
		\$0.00
		\$0.00
Revenue Sub-Total		\$0.00

Net Cost of Impact for New Program

5. Other new program consideration or impacts (including revenue):

Once the program is purchased, the cost will be 500 dollars annually to maintain any updates. This will include access to all FD computers and other computers as needed.

ResponseEMS Protocol

"Your Digital EMS Protocol Solution"

Now your paramedics and EMT's in the field, can access their protocol by computer. Your departments medical protocol can be placed on your tablet pc, vehicle computer, and station computers.

Install from the Internet or CD! Automatic Updates!
