Cathy, can you please prepare a resolution for the next BOT meeting? We need to have funds not to exceed \$3000.00 to repair the Thermal Imaging Camera off Engine 322. The repair is being done by the Bullard Company in Kentucky (original manufacturer) and it will return the damaged camera to like new condition.

The camera has been in service and used daily for 9 years, this is its first repair.

Please let me know if you have any questions or need any further information.

Thanks
