RESIDENTS SELECTED TO SERVE AS REPRESENTATIVES ON THE LIBERTY 2040 COMPREHENSIVE COMMUNITY COMMITTEE

LIBERTY TOWNSHIP, OH – Liberty Township has completed the application process seeking residents to serve on a Community Committee that will guide a long range, comprehensive planning effort known as Liberty 2040 – Community Plan. The Community Committee will be comprised of twelve residents --- three from each quadrant of the township --- as well as representatives from local businesses, schools and other key community organizations.

The township received dozens of applications from residents with various backgrounds and experiences. An application review team utilized a blind review process to select the following residents:

Residents: Jennifer Gabriel, Mark Cameron, John Hartman, Kurt Paulus, Christopher Walker, Vince Finney, James Sisto, David King, Kevin Lee, Nico Franano, Terry Leach and Eric Ekstrand.

The township also solicited appointments from various community stakeholders. The following community business and organizations have expressed interest in participating and have appointed the following representatives to the Community Committee:

Stakeholders: Andy Dutcher, NAI Ohio Equities; Terry Burga and Larry Coolidge, Powell-Liberty Historical Society; Todd Meyer, Olentangy Local Schools; Dan Dillon, Swan Lake Center; Dr. Tina Diggs, Columbus State – Delaware Campus & Regional Learning Centers; Tammy Snider, Chamber of Commerce; Karen Schenk, Columbus Zoo, and David Bridgman, faith based community.

The Community Committee will work closely with the township's consultant, Crossroads Community Planning, to complete this plan. The committee will start its work in February.

The final plan is expected in December 2022. If you are interested in learning more about the Liberty 2040 Community Plan, please visit <https://www.libertytwp.org/442/Liberty-2040-Community-Plan>
